IYNC2020

DIVERSITY IN NUCLEAR

The International Youth Nuclear Congress (IYNC) and the Australian Young Generation in Nuclear (AusYGN) will hold the IYNC2020 conference in Sydney, Australia, in March 2020. Under the theme “Diversity in Nuclear,” the mission of the conference is to promote and enable the diversity of people engaged in the many peaceful uses of nuclear science and technology.

The IYNC2020 aims to promote and encourage diversity of people. Diversity comes in many forms, including gender, culture, educational background, professional experience and geographical location. IYNC2020 will showcase the diversity in the peaceful uses and applications of nuclear science and technology. We will encourage interaction between participants, particularly in the sharing of knowledge and ideas between individuals of different personal and professional backgrounds and different generations of nuclear experts.

IYNC and AusYGN are developed and diverse organisations that are committed to ensuring that the youth are engaged and supported within the nuclear industry, and able to capitalise on the numerous professional opportunities for careers, networking and development. The theme of ‘Diversity in Nuclear’ reflects a commitment to promoting gender equity and addressing diversity issues within the nuclear industry.
